I couldn't be more pleased with my progress. My balance has improved to a greater extent than I thought possible.

In addition, your staff is such a joy to work with and I thank you all.

This information will be sent to your physician(s) along with your discharge note.

Went from having a frozen shoulder with limited range of motion ~~to~~ (and pain!) - to being fully functional again + no more pain! ☺

I was given lots of patient help, and homework that continued my progress.

Very happy to be over this, but will actually miss my sessions! Everyone was great, esp. Karen

Thanks!

I went from not ever being able to dance with my husband to walking again!
I'm dancing again!! Thank you, Janice!

My results for my left arm went well. The pain subsided and I was able to maintain my range of motion with the arm.

Both therapists were very helpful and explained everything thoroughly. This was my first time receiving PT services. I would use these services again.

This information will be sent to your physician(s) along with your discharge note.
